Historical Context and Educational Philosophy

The development of the Accounting 12 Mastery Problem Century 21 is rooted in the broader pedagogical philosophy of mastery learning, initially popularized by educational psychologist Benjamin Bloom in the 1960s. The premise is simple: students should master a topic before moving on, reducing gaps in understanding that often hinder overall academic success.

Century 21's mastery problem series was crafted to align with the Philippine Department of Education's (DepEd) K-12 senior high school curriculum, which emphasizes competency-based education (CBE). The resource aims to support this by providing structured, incremental problem sets that progressively build student competence.
