Answer: a) Select the slide, go to the "Transitions" tab, and choose a transition effect

Explanation:

Transitions are added via the "Transitions" tab. Right-clicking on a slide does not provide an "Add

Transition" option, and the "Animations" tab is used for animating objects within a slide, not slide-to-slide transitions.

Question 5: Presenting and Sharing

Q: Which option allows you to share your PowerPoint presentation for collaboration?

- a) Save the presentation as a PDF file
- b) Use the "Share" button to send a link or invite others to view/edit
- c) Export the presentation as a video
- d) All of the above

Answer: b) Use the "Share" button to send a link or invite others to view/edit

Explanation:

The "Share" feature in PowerPoint enables real-time collaboration by sharing links or inviting colleagues via email. Saving as PDF or exporting as a video are ways to distribute the presentation but do not facilitate collaboration directly.
