- Purpose: Ensures income is matched with the period in which it was earned.

6. Matching Principle

Expenses should be matched with the revenues they help generate in the same accounting period.

- Implication: Costs incurred to generate revenue are recorded in the same period as the revenue.
- Purpose: Provides a more accurate picture of profitability.

7. Consistency Principle

Once a business adopts an accounting method, it should continue using it consistently in subsequent periods.

- Implication: Changes in accounting methods must be justified and disclosed.
- Purpose: Ensures comparability of financial statements over time.

8. Materiality Principle

Only significant information that could influence the decision of users should be disclosed.

- Implication: Trivial expenses or revenues can be omitted or expensed immediately.
- Purpose: Focuses attention on information relevant to decision-making.

9. Objectivity Principle

Financial data should be based on objective evidence and free from personal bias.

- Implication: Use of invoices, receipts, and other verifiable documents.
- Purpose: Ensures reliability and credibility of financial information.
