Central to the success of CIMA students is the Pre Seen Analysis, a comprehensive and strategic approach to understanding the case study scenarios before the actual exam. This article offers an in-depth review of what CIMA Pre Seen Analysis entails, its importance, and how to effectively utilize it to maximize exam performance.

Understanding the CIMA Pre Seen Material

What is the Pre Seen Document?

The Pre Seen document is a pivotal resource provided by CIMA ahead of each case study exam. Typically released a few weeks before the exam date, it offers a detailed overview of the company or organization that will feature in the upcoming case study. This document contains vital information about the company's operations, market environment, financial position, strategic objectives, and other contextual details.

The primary purpose of the Pre Seen is to familiarize students with the scenario they will encounter during the exam.
