The miniature Boxer is not a recognized official breed but rather a crossbreed or selectively bred variant designed to maintain the distinctive Boxer appearance and temperament while reducing size. Breeders often achieve this through selective breeding with smaller breeds or by line breeding within Boxer lines to produce smaller adults.

While the concept of miniature Boxers has existed for decades, the trend surged around 2019-2020, with many breeders claiming to produce healthy, miniature versions of the classic Boxer. It is essential to verify the legitimacy and health standards of breeders offering these puppies.
